Special Formwork Purpose made formwork for special requirements

Overview & Applications

Special formwork by RMD Kwikform is the unique solution to your project challenge. Working with you to meet your specific project requirements we can provide the most cost effective and safest solution possible. With our worldwide design and engineering capability we can provide unique solutions for a wide spectrum of applications, including;

- Water retaining structures
- Tunnels & culverts
- Bridges
- Columns & piers
- Dams
- Water treatment works
- Energy plants
- Industry & commerce
- Leisure & entertainment
- Pre-cast & site moulds

Special Formwork Purpose made formwork for special requirements

Features & Benefits

Purpose made formwork to meet special project requirements.

■ **Skills & expertise**

Innovative, tailor-made solutions to all your special formwork needs, whether it's a simple modification to an existing product, or the complete development of a new application.

■ **Advanced products & solutions**

RMD Kwikform is not only committed to the development of new products, but also to extending the range of applications they are used in, increasing their effectiveness and reducing construction costs.

■ **Worldwide expertise**

RMD Kwikform operates worldwide, working on a diversity of projects. All experience gained on projects is shared throughout our global network of offices giving us a unique understanding of the challenges you face.

■ **Cost effective, innovative solutions**

With tight budgets and shorter construction programmes, you need cost effective solutions, whilst ensuring that quality and safety are never compromised. We deliver on these requirements.

■ **Working in partnership**

RMD kwikform understand the need to work as part of a team in order to optimise the construction programme.

■ **Design & quality**

High quality, tailor made designs for each new project, built on over sixty years experience.

Special Formwork Purpose made formwork for special requirements

In detail

Sectors

Water related projects

Special forms can be created for water related projects to encompass a demand for conventional, and special formwork to ensure safe, high quality end products.

Tunnels culverts & bridges

We have provided forms for a variety of tunnel and culvert projects across the world. Our experience ranges from huge travellers for immersed tube elements to compact and fully automated telescopic circular tunnel formwork machines. We have vast knowledge and experience of bridge construction, and in the past we have provided forms for pylons, piers and crossheads, as well as travellers for balanced cantilever construction.

Columns & piers

The varying design of columns and piers heightens the need for innovative formwork solutions. RMD Kwikform designs columns and pier forms to reduce labour and construction time by minimising site joints and ties. As a result of this expertise, a wide variety of column forms can be produced to specification, in both a timely and cost effective manner.

Services

Pre-cast & site moulds

Designed to be consistently accurate with high quality concrete surface finish, RMD Kwikform can provide tailor made moulds of any shape and size to suite your specific requirements. We ensure that all moulds are easy to assemble on site, accurately and with the minimum fuss.

Energy, industry & commerce

Special formwork has been provided to a range of energy related projects, from natural gas storage to coal bunkers for power stations. For commercial buildings, we have provided tunnel formwork systems to construct the walls and slabs monolithically.

Working for you

Our highly responsive team of designers, fabricators, logistical and safety experts all work to the common goal of providing effective, easy to use and economical Formwork, to aid your construction project.

Services

Our service sets us apart..

With over 85 years of experience in the temporary works industry we understand the many and varied challenges that our customers face, whatever the size of your project. Whilst our product range provides us with the capability of supporting your project, it is our people that will make the difference.

Sales Support

Our sales team comprises a vast wealth of experience in the sector, helping us to understand your challenges and the opportunities to save you time and money.

Engineered Drawings

You will be provided with technical recommendations and layout drawings showing a level of detail sufficient to enable straight forward on-site erection. For specifically fabricated items comprehensive operating instructions will be provided.

Customer Service

We work with customers on all scale of projects and as such recognise that your requirements are all different. We provide a level of customer service to suit your requirements ranging from on site training to simple reordering of replacement parts.

Technical Expertise

Every project, large or small, requires unqiues system design. Our highly skilled team of engineers and technical experts will understand first your requirements, and provide a solution designed to exceed these. We do this through approaching projects with an open mind and a desire to provide the most appropriate solution.

Safety

RMD Kwikform prides itself on the inherent safety of our products and the solutions that we design. The construction industry's greatest asset is its people and we design schemes and solutions with this in mind at all times.
